

Piercing Price list

Jewellery

We only offer good quality jewellery here at the Ink Shack as we care about what goes in your body and you should too. All jewellery is ASTM F136 surgical implant-grade titanium as standard, which means no nickel allergies and gives you the best chance of healing correctly. Good quality jewellery is essential for a well healed piercing that will last & your body will love you a lot more for it too!

Upgrades

We offer an upgrade option with most initial piercings which can really bring out the beauty in your new piercing. These upgrades feature Swarovski Crystals, CZ (cubic zirconia) Crystals, Cabochon Opals & Natural Stones, all in different sizes & colours on display in the studio for you to have a look at. These upgrade attachments can be used for initial piercings or to upgrade your old piercings & will attach to pretty much any piercing on your body, so the possibilities are endless.
